Press Statement

Condemn Israel's brutal attack on Syria

Date: 6 May 2013

The West Bengal State Committee of the All India Peace and Solidarity Organisation (AIPSO) condemns the blatant unprovoked Israeli missile attack on Syria.

Backed by the US, Israel is violating all international laws.

The UN should not remain silent and must do something substantive to prevent further Israeli aggression.

The problems prevailing in Syria can be solved amicably by the Syrian people without any external interference. The sovereignty of Syria must be respected.

The Government of India should also put pressure on Israel to stop military operation in Syria immediately.

We call upon the peace-loving people of Bengal to join the world-wide protest against the expansionist designs of the US/NATO and their stooge, Israel.
