

STATEMENT OF THE PRESIDENCY OF WPC ON THE CONTINGENCY BETWEEN CHINA AND VIETNAM

On behalf of the Presidency of the World Peace Council, WPC, we express preoccupation about the crisis involving China and Vietnam. These countries have a common history of struggle against colonialism and imperialism and they have a socialist project, aiming to overcome capitalism. We are in solidarity with the demands of the Vietnamese people and we recognize that China is a country with full conditions to be opened for an agreement by a constructive dialogue. We understand that US imperialism is today the biggest threatening to peoples and China and Vietnam, which with the blood of their revolutionary heroes were able to defeat greater enemies in the past, have today full conditions to reach dialogs aiming peace and mutual understanding.
